DETAILED ACTION

1. Claim Rejections - 35 U.S.C. § 112

- 2. Claims 1-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
- 3. Claim Rejections 35 U.S.C. § 102
- 4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- (e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371© of this title before the invention thereof by the applicant for patent.
- 5. Claims 3, 4 and 8 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Bisey '614.

The examiner is interpreting resolving the distance calculated from the measurement by the three microphones into three-dimensional space to comprise statistically analyzing the viewing distance.

6. Claim 54 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Waltuck et al

'981.

7. Claim Rejections - 35 U.S.C. § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

- (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 8. Claims 45-52 are rejected under 35 U.S.C. 103(a) as being unpatentable over Shapiro et al '720.

Shapiro et al disclose all of the claimed features except for a computer workstation. One of ordinary skill in the art would have found it obvious to use the automatic display adjustment disclosed in Shapiro et al with a computer workstation because Shapiro et al teach the display may be used to compensate for viewers who differ from norms or averages and relates to computer display monitors.

Allowable Subject Matter

9. Claims 5-7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

- 10. Claims 9-44, 53-62 are allowed.
- Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL.** See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
